To Whom It May Concern:

After suffering the tragic loss of one of our manufacturing plants, we sought the professional assistance of Young Adjustment Company to help us to guide us through the insurance claim process. David Horowitz and his team were very knowledgeable and they and provided us with their insights and expertise to ensure that we were fully reimbursed for our losses including the building and equipment as well as the ongoing expenses associated with our business interruption. Their assistance proved to be invaluable for us and I would highly recommend anyone who suffers a significant property loss to engage Young Adjustment Company as a first step in their recovery efforts.
